HUMAN INTEREST TALE

- 1236 A \$10.00 National Note of Cortland, New York. Series of 1875. Found on the body of a drowned Sea Captain in the year of 1879 by the United States Coast Guard in Manteo, North Carolina. After the document and letters, note etc. were filed at this early period, and in 1939, in an effort to dispose of the effects of the late sea captains belongings which developed into a lengthy correspondence matter that took 8 letters, documents, telegram, and a newspaper clipping, the Government tried to complete this transaction, and to make a long story short the note came back to its original bank for the grand total of \$5.00 above face. Many years later all of the above mentioned effects including the note were resold after the bank official died and was repurchased by a New York collector. It is now being offered herewith only briefly described, with the human interest letters etc. for what it is worth to some interested collector. No estimated value placed.

Unique Pair of Re-Constructed Legal Tender and Silver Certificate Sheets.

- 1237 F.39. \$1.00. 1917. Legal Tender, red scalloped seals, signatures of Speelman-White. Low serial number of N5A, N6A, N7A, N8A, and F.236. \$1.00. 1899. Silver Certificates, blue seals and same signatures of Speelman-White with same serial numbers N5A, N6A, N7A, and N8A. Crisp, Unc. numismatic estimated value — one could place most any price on this museum set of notes and your guess is as good as mine — what it will bring. Estimated value \$500.00.

ERRORS**Misprinted Currency**

- 1238 ** Nothing like starting off with a bang! ** — \$1.00, 1935A, Silver Certificate. The seal, signatures, serial numbers, and series date all printed upside down. Naturally, this places the blue seal on the left side of the note. Instead of its usual position on the right. Crisp, Unc. and naturally very scarce, worth \$150.00.

- 1239 \$10.00, 1950A, Federal Reserve of Cleveland — seals, and signatures and serial numbers again inverted or upset. These type errors must be rare, after all only 18 notes printed to a sheet, all of them possibly could not pass inspection and if they did, they would be still rare. Faint vertical crease, crisp and clean, Prac. Unc. Estimated value \$200.00.

- 1240 \$20.00, 1950A, Federal Reserve of Cleveland. Similar error and same description apply to this note with this exception, that the higher the values the closer they are scrutinized by inspectors, so we feel that the estimated value should be higher on this one, Ext. Fine, Crisp.

- 1241 \$20.00, 1950, Federal Reserve of Cleveland. Error on the black Federal Reserve seal at left, instead of being round is appears like a capital letter "C", caused by a piece of selvage falling on this position when this seal was being printed. Very unusual, crisp, Unc. Estimated value \$50.00.

- 1242 \$1.00, 1934, Silver Certificate, blue seal and numeral "I", signatures of Julian-Morganthau. Crisp, Unc. **SERIAL NUMBERING OFF, upper right number starts with "A83"** — A83213117A and lower left serial number starts with A84, crisp, uncirculated, **A RARE ERROR** \$25.00.

- 1243 **A Multiple Error.** \$1.00, 1935E, Silver Certificate, signatures of Priest-Humphrey. The lower left hand corner was folded over diagonally so that the reverse design received the front part of the lower serial number which appears now on the reverse design in this manner T167478, when the piece is folded back the obverse lower serial number reads part of the (8) showing and 6G. Now for the human part of this error — a red tab was placed on the lower right hand corner — at the Bureau of Engraving (for rejection). **How did it get out?** Crisp, Unc. Estimated value \$50.00.

- 1244 \$1.00, 1934, Silver Certificate. Blue seal, Julian-Morganthau. Reverse on this note is printed upside down upset or inverted. Fine \$25.00.

- 1245 \$2.00, 1928, Legal Tender, red seal, Tate-Mellon. **Again with reverse inverted "Note"** circulated (V. Good) should not detract from an error. In fact picking up an error which has circulated though many hands, makes it still more interesting. V. Good \$50.00.

- 1246 \$5.00, 1928, Legal Tender, red seal, signatures of Woods-Mellon. Reverse inverted. This is a scarce note to begin with, but with being in error form naturally makes it very scarce or even rare. Crisp, Unc. Estimated value \$100.00.

- 1247 \$10.00, 1934A. Federal Reserve Bank of New York. Green seal. Signatures of Julian-Morganthau with inverted reverse. Fine, estimate \$50.00.

- 1248 \$1.00, 1935 Silver Certificate with diagonal white gutter type paper, crease at left, showing on obverse; and \$1.00, 1935 "E", Silver Certificate with very wide white gutter type paper, crease very much diagonally at lower left-hand corner on reverse side, 2 pieces, V. Good, Fine \$10.00.
- 1249 \$10.00, 1950A, Federal Reserve Bank of New York. Green seal. Signatures of Priest-Humphrey. **This is a very interesting paper crease.** Very wide gutter mark, diagonally at left end, the large crease appears like a broad sword with 3 additional wide creases spraying off in different directions from the end of the long one — resulting in left end and top of note becoming much out of line and deformed. Crisp, Unc. \$35.00.
- 1250 \$5.00, 1950A, Federal Reserve of Cleveland, Ohio. Reverse design imprinted diagonally on the obverse of this note, fine \$12.50.
- 1251 \$20.00, 1950A, Federal Reserve of New York, obverse printing can be seen in black on the lower part of the reverse which is green. Crisp, Prac. Unc. \$30.00.
- 1252 \$5.00, 1950, Federal Reserve of Cleveland, Ohio, (2 pieces) Reverse on the first note has a ½" wide margin at top and at right. On left side and bottom the note has no margin. In fact, part of the design is trimmed away. The second note is exactly the same description but on opposite sides on this note. The wide ½ inch margin at the left side and bottom, crisp, unc., 2 pieces \$40.00.
- 1253 Pair of \$1.00, 1935D, Silver Certificates. Reverses far off center. Same description as preceeding lot. Ext. Fine to uncirculated \$20.00.

TYPE COINS

Your special attention is directed to the following lots which are a consignment of **TYPE COINS**. Many are choice and command premium over estimated values

- 1275 1793 Gilbert I, Half Cent, St. V. Fine. The obverse is very boldly struck with trifle weakness at the horder at right; Reverse has some roughness but very sharp, worth close to \$250.00.
- 1276 1795 Half Cent, G. I. The lettered edge, pole to cap variety. Obverse is V. Fine with beading very bold; Reverse a strong Ext. Fine Glossy medium brown and steel toning, certainly worth close to \$75.00.

-
- 1277 **1804 Half Cent, G. 2, Rarity 2, Plain 4** in date with no stem to wreath. "Purchased as Red Uncirculated" This we do not agree to since it does have slight wear and is reddish brown with traces of red, Prac. Unc. worth about \$27.50.
- 1278 **1833 Half Cent, G. I.** Reddish brown uncirculated with considerable red. Exceptionally sharp struck with prooflike surface "Note" - We have noted specimens inferior to this are listed as proofs. This is choice and a premium coin worth \$25.00.
- 1279 **1837 Half Cent, Token.** Obverse, Eagle in center; U. S. standard weight and value. The date 1837 below; Reverse "Half Cent worth of " within a wreath, circle of stars, "Pure Copper" below. Few pin point nicks, glossy brown Ext. Fine, very much in demand, should bring well over \$25.00.

-
- 1281 **1793 Large Cent, Sheldon 6.** The sprung die variety, R. 3. The hair of Liberty always massive and appears flat on the high points. My first glance at this coin, I admit, startled me since red uncirculated coins of this series are virtually uncollectible. Upon careful examination this coin has been expertly restored in the field and recolored to a rich soft reddish brown toning. Actually this coin has no wear and we must grade it at least Prac. Unc. (50) and we feel that it should exceed \$400.00.
-
- 1282 **1794 S. 31, Large Cent, Hays 39.** The marred field variety with long fraction bar well centered, exceptionally sharp features and beading. Rich and medium brown toning with traces of red. This specimen was purchased as Mint State 65. We would rather play it safely and list it Uncirculated M. S. (60) and as so - there can't be over 6. known in this state of preservation. Should easily exceed \$175.00.
-
- 1283 **1803 Large Cent, S. 260.** Very large fraction variety. Sharp struck with glossy medium olive toning from the Ex-Wurtzbach Collection, Uncirculated, M. S. at least (55) and worth all of \$75.00.

- 1286 **1845 Large Cent, N. 4.** Purchased as a Proof in 1938 which is not so. Although this coin has square edges, sharply struck up with glossy medium brown and steel toning, it is choice, uncirculated and worth \$17.50.

-

-

PUBLISHER AND EDITOR LETTER

Again!!! As we are going into our third year we wish to repeat our thanks for the many complimentary letters from our readers and members regarding the Mint Error Bulletin. We sincerely hope that all of the members plus the subscribers will continue to enjoy this publication as much as we have enjoyed our efforts in research of mint errors and the compilation of this paper. If it has in some manner helped solve some of the mysteries of die and human error and added another phase of collecting to some other collector as it did for me — then I am fully paid for "truly a labor of love".

1869 INDIAN CENT

Possibly Unique

2196	1869 Cent STRUCK IN SILVER on a silver dime planchet. This ERROR was and is listed erroneously in the reference book of Adams-Woodin "United States Patterns-Trial & Experimental Pieces", known as "A. W. No. 825, Rarity 13: Regular dies: Rude planchet: Silver". This Mint Error without a shadow of doubt. will not be listed as a pattern in Dr. J. Hewitt Judd's new and revised book on U.S. Patterns. As to the degree of rarity—we consider this error as Rarity 15—TOPS—Possibly One known. The value, at least	\$500.00
------	--	----------

1869 INDIAN CENT

Possibly Unique

2197	1869 Cent STRUCK ON A COPPER-NICKEL planchet. This cent was consigned to us as a pattern. We believe this one to be erroneously listed in the pattern book as Adams-Woodin No. 826. By some chance a copper nickel planchet happened to stray and become mixed with the regular bronze planchets. The edge is rough: rim has tiny splits caused by the striking pressure of the dies. At this early stage of analysis, we believe it to be struck on a foreign copper-nickel planchet, slightly thicker than the usual bronze planchet of this year. We have never seen or heard of another struck so, of this particular year. However, should the term UNIQUE be wrong, there is no doubt that not more than one or two others could possibly show up. Uncirculated. Should bring well over	\$350.00
------	--	----------

2198	1901 1/6th. o.c. in K.11¼ position. (In artcraft holder). V. Fine	\$20.00

2217	1943 STRUCK IN SILVER , on a dime planchet. Ext. Fine. Should exceed	\$100.00

Note: In our years of research with mint errors, we now can account for about 100 pieces of all dates and mintmarks of cents which are struck in silver.

2228	1956"P" STRUCK IN SILVER, on a dime planchet. Unc.	\$75.00
------	--	---------

2229	1956-D STRUCK IN SILVER, on a dime planchet. Far rarer than the 1943 silver cents or the date listed above. Ext. Fine

------	--	--

2234	1958-D Over 1/2 o.c. in K.8½ position. Unc.	
2235	Lincoln Cent. 7/8ths. o.c. in K.6½. Unc.	
2236	195(?) Struck on a thin planchet. (Half the regular thickness). Weak struck impression, as should be, on a genuine thin planchet coin. Unc. Scarce	
2237	Lincoln Cent. Virtually a Blank Cent with a tiny piece protruding. Unc.	
2238	1959-P Clipped Cent. Yes, the new type cent with the Lincoln Memorial, struck on an incomplete planchet. About 1/6th of the planchet missing. Unc.	
2239	1959-P Another, with a Double Clip. Small clip at K.5¾ position and a tiny clip at K.8½. Unc.	
2240	195(9) The Third One. Large round clip at K.4. Clip removes part of the 5 and all of the 9 of date. Unc.	
2241	1865 THREE CENT NICKEL. 1/8th. o.c. in K.5½ position. Ext. Fine. Scarce enough to bring at least	\$50.00

NICKELS

(In Error Form)

2244	Blank Nickel Planchet. Type with rolled edge. Unc. Consistently bringing \$10.00 and over.	
------	--	--

2245	1866 Shield Type Nickel, STRUCK ON A BRONZE CENT PLANCHET. Not over 6 to 10 pieces known to exist of this type and possibly not over 2 or 3 of this date. In an arcraft holder. Ext. Fine. Worth	\$300.00
------	--	----------

2246	1867 Shield Nickel. Over one-third of the reverse is flaked away. The obverse has a defect, but believe it to be intentional, to "void" the coin.	
2247	1882 Shield Nickel. 1/10th. o.c. in K.12. Unc. In an arcraft holder.	\$25.00
2248	1882 Shield Nickel. Another. With three heavy and high rim diebreaks encircling 2/3rds of the circumference. (The dies sure failed rapidly at this point. If this happened in the early stages of striking of this date, there must be some very interesting die varieties of this issue)	
2249	1888 LIBERTY HEAD. Struck nearly 1/3rd o.c. in K.10¾ position. Gold plated and has a test file mark on the blank portion. (In and arcraft holder). Mint Error collectors should not be too particular as to condition. Remember . . . it may not be available in any other condition. Fine. Worth	\$50.00
2250	1890 Liberty Head. 1/10th. o.c. in K.6. V. Good. A few light scratches. A scarce date. (In arcraft holder)	
2251	1902 1/10th. o.c. in K.12½. Unc.	\$25.00
2252	1907 Double Round clips, in K.6½ and K.12½. Scarce in double clip form. Prac. Unc.	
2253	1917 Buffalo Nickel. 1/8th. o.c. in K.5. Unc.	
2254	1919 Struck on a incomplete planchet. one-fourth of the planchet is missing. Unc.

2256	1919-S 1/8th. o.c. in K.10. Uncirculated. (If you are collecting dates, don't let the estimate of \$35.00 stop you from bidding higher on this rare date and mintmark coin).

THE U. S. COIN ALBUMS

The series of twenty different U. S. Coin and two World Silver Dollar Albums listed below have been especially adapted for use in housing coins most widely collected by numismatists the country over.

In style and design they have been manufactured along the same lines as the more expensive American Coin Album pages except that each row of openings has a single celluloid slide which can be removed by friction of the fingers toward the outer edge of the page. This will permit quick insertion of the coin into place after which the celluloid slide is returned to its original position. Of necessity only one side of each coin is displayed. These albums are sturdily constructed of heavy dark green cover stock attractively designed with portrait and title and are also printed with year dates on each page. Size 5½"x8".

Sturdy construction, convenient handling and moderate price have made these U. S. Coin Albums popular with thousands of coin collectors everywhere.
